

SL-364T

SECURE · LINK MINI BODY TEMPERATURE DETECTOR

The Mini Body Temperature Detector utilizes the unique non-contact infrared technology to measure the surface temperature of the human body. Once abnormal body temperature is detected, it generates a voice warning which can effectively prevent large scale disease contagion.

This device can be integrated with various optional mounting accessories. It can be integrated with a walk through metal detector with a special Clamping Mount. It can be installed against a wall beside your Time Attendance System or beside your Disinfecting Equipments. It can be mounted on Poles for Office Lobby or Reception, as well as Conference Rooms.

Features:

- Quick Screening
- Response Time less than 1 second
- Non-Contact
- Applied to Wrist or Forehead
- Voice Annunciation
- High Brightness LED Display

Applications:

Wall Mounted

Pole Mounted

Clamping Mount (for Metal Detector)

Specifications:

Temp Measurement Distance	1-20 cm
Temp Measurement Response Time	Less than 1 second
Temperature Measurement Accuracy	+/- 0.3 Degrees Celsius
Working Temperature	-10 to 30 Degrees Celsius
Operating Humidity	95% Non-Condensing
Working Voltage	12VDC
External Power Supply	AC100-240V 50/60Hz
Power Consumption	8 Watts
Dimension	164 x 110 x 32 mm (Excluding Bracket and Power Supply)
Weight	0.6 Kg.
